

ASSIGNMENT 2

CODE:

```
import os

from random import*

temp=randint(1,100);

hum=randint(1,100);

print("Temperature is high",temp);

if temp>=70 and hum>60:

    print("Hazadous area..Leave the place");

elif temp>=70:

    print("Temperature high");

else:

    print("Alarm On");
```
